

THANK YOU

for being an MT Subscriber!

And now, a special offer just for you!

Tune your transceiver, scanner, or HT outside the ham bands to hear:

- Shortwave broadcasting
- Government and military communications
- In-flight aircraft
- Ships at sea
- Public safety
- Tactical and scientific satellites
- ...and more

Every month Monitoring Times brings you informative articles written by experienced hams and other radio experts to help you sharpen your listening skills – The latest frequency information, loggings of activity, in-depth reviews of radio equipment and accessories, background stories and schedules of international radio broadcasters, internet radio, amateur radio, and even antique radio.

MONITORING TIMES EXPRESS

MT Express brings you the entire Monitoring Times magazine in downloadable PDF format, including free software and FTP delivery. Unavailable in the more expensive print copy, MTX is **full color** and easily navigated by clicking on the table of contents. Interested in foreign language programming? Only MT Express has this exclusive coverage in every issue. Search each copy with your key words for topics or station schedules. Print it out as much as you'd like to retain for your library, or keep it as an electronic file for quick reference.

Download your free sample now at www.monitoringtimes.com and click on Free Sample, or give us a call for a free print copy: 1-800-438-8155.

Monitoring Times print subscription: **Only \$32.95 for a full year!**

Monitoring Times Express: **only \$19.95 for a full year!**

Call today....If it's on the air, Monitoring Times has it covered!
