**UHF Milair Nationwide Frequencies**  
*By Larry Van Horn, N5FPW*  
*MT Milcom Columnist*

One of the most common questions I get from milair enthusiasts is what frequencies should I program into my scanner to monitor milair activity? What frequencies are used nationwide in the 225-400 MHz UHF military aircraft band? Here is the start of my exclusive nationwide UHF military air frequency list for readers and subscribers of *Monitoring Times* magazine. I will continue to add to this list until I have completely covered the 225-400 MHz mil aero band.
